

# Wyandotte County Mask Order:

## WHAT DOES THIS MEAN FOR CHILDCARE?

Masks are required for anyone in the building 5 years of age and older. This would include providers, parents, and children who are 5 years of age or older.

For children over the age of 2 and under the age of 5, masks are recommended with help from an adult. Children 2 and younger should not wear a mask due to the risk of suffocation.

Children do not need to wear a mask during nap time but nap cots should be placed in a way that at least 6 feet of space is maintained between the heads of napping children.

Children and providers can remove masks during meals and snacks, but again, every effort should be made to assure there is at least 6 feet of space during these activities.

Masks should be worn in any indoor spaces including hallways and bathrooms.

When outdoors, masks should be worn if 6 feet of space cannot be maintained between kids and/or providers. If space can be maintained then they can remove masks but depending on the age of the child, they may not understand social distancing and therefore masks should be worn.
